RELEASE DATE: June 20, 2011  
RE: ONTARIO DIAGNOSTIC CENTRES INSTALLS ITS SECOND MICRODOSE  
MAMMOGRAPHY UNIT

Ontario Diagnostic Centres Radiology Associates Clarkson location has now installed the second microdose digital mammography unit in North America. Last month, the Radiology Associates Mississauga location at Dundas & Hurontario installed the first microdose digital mammography system.

“We are continually amazed by the quality of the images we are receiving from these units. We have already seen a significant increase in volume of women being screened at this location. The patient acceptance of this has been remarkable. We are pleased that women are reporting a much more comfortable experience on these units compared to traditional mammography, both digital and film units. We are glad to be able to offer this service to women in the Southern Mississauga and Oakville regions,” said Dr. Murray Miller, Managing Director of Ontario Diagnostic Centre.

For further information, contact Radiology Associates Clarkson (905) 822-9671.
