RE: ONTARIO DIAGNOSTIC CENTRES ANNOUNCES THE FOURTH DIGITAL  
MICRODOSE MAMMOGRAPHY SYSTEM

Six Points Diagnostic Imaging, a division of Ontario Diagnostic Centres, is pleased to announce the installation of the fourth Sectra Digital Microdose mammographic machine in North America. The other three units have now been installed at the Ontario Diagnostic Centres in Clarkson, Mississauga and Etobicoke.

“I believe this represents a true breakthrough in mammographic imaging” said Dr. Murray Miller, Managing Director of Ontario Diagnostic Centres. “ This equipment allows us to obtain unparalleled image quality in our mammograms, at a fraction of the radiation dose of other digital equipment and a much better image than on traditional film equipment,” said Dr. Miller. “ We look forward to offering this service to women throughout the GTA. We are accepting patients as of today.”

For further information, please Six Points Diagnostic Imaging, a division of Ontario Diagnostic Centres at (416) 231-3369.
